Fellow Cyclones,

Last night racist vandalism and burglary occurred in Roberts residence hall on campus. We thank President Wendy Wintersteen, ISU PD, and the Department of Residence for their quick responses and their pledge to “prosecute those responsible to the fullest extent of the law.”

Student Government condemns these acts of racism. The principles of community that we are all committed to upholding - respect, purpose, cooperation, richness of diversity, freedom from discrimination, and honest and respectful expression of ideas - were blatantly disregarded and violated. We continue to strive toward creating and preserving an inclusive and welcoming environment for everyone. As representatives of all students, we will actively work to fulfill these principles until they become a lasting reality.
