[Open text response]

Q18_Ref  Do you support a constitutional amendment to reduce the required percentage of Senators to meet quorum from 2/3rds to a simple majority?

1 = Yes
2 = No

2020-3-066 SZ

Quorum: The minimum number of members of a group necessary to conduct business.

Robert's Rules of Order: The most widely used manual of parliamentary procedure in the United States. It governs the meetings of a diverse range of organizations that have adopted it as their parliamentary authority.

Proposal: Reducing the required percentage of Senators to meet quorum from 2/3rds to a simple majority.

Pros of lowering quorum:
- Improve the Senate’s efficiency if quorum can be reached more often.
- Robert’s Rules of Order recommends quorum to be a simple majority.
- Quorum should not be the number of members you wish would attend but rather the number you can reasonably expect to attend.

Cons of lowering quorum:
- Lowers protection against unrepresentative action in the name of the body.
- Potential to discourage active participation in meetings.
- Potential to discourage members to attend regularly.
